Strategic Planning & Execution | Performance Monitoring & KPIs | Process Improvement

PROFESSIONAL EXPERIENCE

Boston Consulting Group (BCG) – Dubai, UAE | 2022 – Present

Project Leader | 2025 – Present

Lead and advise cross-industry clients in financial services, real estate & tourism, and infrastructure & logistics, driving growth strategies, operational excellence, and transformative business initiatives. Execute data-driven analyses to resolve complex challenges, producing actionable insights that inform C-suite decision-making.

- Converted two business opportunities valued over AED 30M by -directing 5+ business development initiatives for public sector and financial services clients, including pension reform proposals, cross-sell strategies, and VC ecosystem development programs.
- Offered a high-impact AI strategy retreat for a leading GCC pension sector client by orchestrating content creation, event logistics, roundtable design, session scheduling, and expert panel coordination.
- Enabled organizational alignment with long-term strategic objectives by designing a future-state target operating model for a GCC-based industrial cities developer.
- Achieved measurable client impact and high-quality project delivery by spearheading and mentoring a team of 10+ consultants across multiple engagements.

Consultant | 2023 – 2025

Developed sector transformation playbooks for real estate, retail, and financial services to incorporate global benchmarks and actionable execution frameworks for a GCC regulator. Built tourism demand forecasting model using regression analysis on leading indicators to empower long-term strategic planning for Abu Dhabi's tourism regulator.

- Identified high-value growth opportunities and formulated a KSA growth strategy for a ~\$40B global electrical products firm through market sizing, competitor benchmarking, and stakeholder engagement.
- Achieved ~\$50M in annual savings for a leading UAE bank by handling customer-centric digital transformation, implementing STP, offshoring, and process optimization initiatives.
- Facilitated smart city repositioning for a \$1B+ UAE industrial zone developer by redesigning the operating model, establishing technology clusters, digital factories, and innovation hubs.
- Provided ~\$125M pricing uplift and operational digitisation by advising the CEO of KSA's largest industrial city developer on \$20B power expansion using a lean factory blueprint.
- Guided GDP growth, FDI attraction, and talent inflow by constructing 12+ investment cases for a UAE regulator across real estate, financial services, and healthcare under D33 priorities.
- Increased visitor numbers, length of stay, and per-day spending for Abu Dhabi's tourism regulator by managing 12+ strategic initiatives with structured governance and actionable plans.
- Amplified portfolio ROI and trade balance by evaluating global transport investment opportunities (\$1M+) for a KSA ministry.

Summer Consultant | 2022

Conducted market research and competitive analysis to identify growth opportunities and inform client strategy. Analyzed quantitative and qualitative data to develop actionable business insights and recommendations.

- Enabled long-term strategic planning by developing a comprehensive 25-year forecast and constructing a robust financial model for a Middle East Power & Utilities client.
- Supported strategic capital allocation by synthesising performance metrics from 12 entities into an integrated financial model for a GCC utilities firm, underpinning a \$200B investment program.

Swiss Singapore Overseas Enterprises (PTE) Ltd – Dubai, UAE | 2020 – 2021

Assistant Manager – Global Finance & Accounts

Mentored and coordinated a team of associates, liaising with banks, insurers, and international suppliers to drive seamless trade finance execution and revenue generation.

- Oversaw global trade finance operations for the coal division of Swiss Singapore, a \$45B Aditya Birla Group entity, managing \$1.5B+ in annual transactions and directing a 10-member team.
- Collaborated with IT to automate reporting and develop a strategic dashboard, offering real-time insights for senior leadership and revamping working capital by \$20M.
- Improved Letter of Credit approval workflows by implementing a bespoke system, reducing turnaround times and realising \$200K in annual cost efficiencies.

Britannia Industries Limited – Bangalore, India | 2018 – 2020

Financial Services Manager – Strategy & Operations

Spearheaded strategic and operational initiatives at a leading \$1.7B CPG company to steer growth strategy, factory finance oversight, supply chain optimization, and cross-functional project completion.

- Acquired \$75M in investments by orchestrating long-term capacity planning with 12 cross-functional stakeholders, enabling the launch of two high-impact manufacturing plants.
- Directed \$50M in manufacturing operations as Factory Finance Manager, overseeing a 15-member team to ensure robust financial governance and operational accountability through RACI frameworks.
- Realised \$500K in annual savings by engineering supply chain reconfiguration, deploying a Transporter Management System that decreased payment cycles by 45 days and accelerated dispute resolution.
- Achieved \$7.2M in operational efficiencies by establishing and supervising a six-member replenishment team, executing initiatives such as Plant-SKU-Depot mapping, direct dispatch, and truck type improvement.
- Identified \$15M in potential savings through detailed analysis of supply chain cost drivers, and designed a three-year strategic application roadmap.
- Maximised ROI, IRR, and NPV by developing CAPEX proposals with advanced financial modelling, attaining 98% accuracy in post-implementation performance evaluations.

Sanjay P Agarwal & Associates – Kolkata, India | 2015 – 2018

Senior Associate – Risk Advisory

Strengthened organizational processes and internal controls for large-scale clients to enhance compliance, operational efficiency, and risk management capabilities.

- Generated \$500K in client savings by delivering 15+ statutory and tax audit engagements, increasing financial controls, risk management, and regulatory compliance.
- Secured favorable outcomes for 10 clients by representing before income tax authorities, mitigating liabilities and upholding compliance during scrutiny cases.

Ernst & Young, India – Kolkata, India | 2015 – 2018

Associate – Risk Advisory

Assisted in identifying, assessing, and mitigating operational, financial, and regulatory risks across client engagements. Conducted risk assessments, control reviews, and gap analyses to support organizational compliance and governance frameworks.

- Boosted financial accuracy and internal controls by performing walkthroughs, control assessments, and process evaluations across revenue, receivables, provisions, and fixed assets for a \$10B client.
